

Notice of Limited Operations

Per Governor Newsom's Executive Order N-33-20 of March 19, 2020, the role of the FPUD is designated by both the State and Federal governments as an Essential Function, to be maintained during emergencies, including the current COVID-19 emergency. These functions include performing all associated activities, including regulatory oversight, inspections, operations & maintenance, treatment and distribution, sampling, laboratory analysis, and others, that support the continued delivery of safe drinking water during this pandemic.

Your water is safe from coronavirus (COVID-19). It is treated and tested before making its way to your home or business and continues to meet all state and federal drinking water standards. Drinking water remains available to the entire service area without restrictions or rationing.

The Foresthill Public Utility District is committed to your safety and the safety of our staff in this unprecedented time. For this and with respect to the Governor's order, our office is closed to the public. We will still have staff in the office Monday through Friday from 8am until 4:30pm to perform daily operations and answer calls and emails.

Payments can be left in the secure lock box at the office. If you require a receipt, one can be mailed to you. If you have any questions please contact Customer Service at (530) 367-2511 or www.foresthillpud.com

We look forward to serving you in person as soon as the social distance is no longer necessary.
